

## **AMENDMENTS TO THE SPECIFICATION**

### **In the Title:**

Please change the title to the following: "Television Receiver Utilizing Extended Service Information."

### **In the Specification**

Please replace the paragraph on Page 17, lines 11–12 with the following:

Names of each linked event (including the name or ~~[[tile]]~~ title of a programme).

Please replace the paragraph on Page 22, lines 9–14, with the following:

As shown in Figure 2, the decoder is made able to tune to digital terrestrial TV by the addition of terrestrial tuner 12a to the high speed port 30 of the set top box. (Similarly, a terrestrial set top box will be able to tune to digital satellite TV by the addition of a satellite tuner.) Ideally, in this case~~[[s]]~~ the EPG resident in the set top box will be capable of ~~seemlessly~~ seamlessly merging data from the two environments.
